Fixed-Price Orthopaedics

Our Orthopaedic team provide a comprehensive range of diagnostic and treatment options, performing surgeries ranging from arthroscopy and TPLOs through to more advanced procedures including complex fracture repair and angular limb corrections.

Being part of a large multi-disciplinary hospital allows the orthopaedic team to take a truly multi-disciplinary approach to patient care, working collaboratively with colleagues in different disciplines to optimise outcomes.

The on-site MRI, CT, digital radiology, ultrasound facilities and team of Diagnostic Imaging Specialists help to facilitate timely and accurate diagnosis.

To support a smooth referral process and for transparency and predictability of costs for your clients, we offer a number of fixed price procedures. Here is a sample of them.

These packages include consultation (with urgent ECC assessment and triage if required), initial hospitalisation, pre-operative blood tests*, imaging with radiographs (there is an additional fee if CT is required) under sedation, anaesthesia, surgery and implants and discharge with up to 2 weeks of medications**.

Post operative rechecks and additional procedures will incur additional fees. The prices stated are a guide and a definitive estimate will be given following assessment of the patient at DWR.

*TPLO <20Kg (and extra-capsular stabilisation of any size)	£4,750
*TPLO 20-40Kg	£4,750
*TPLO >40kg (additional costs may be payable for large and giant breeds should specific/additional implants be required)	£4,750

**TPLO includes consult, radiographs of both hind limbs under sedation, surgery, implants. >40kg bundle includes two plates if required.*

Patella Surgery	
Patella <20kg unilateral	£4,250
Patella >20kg unilateral	£5,250
Patella <20Kg bilateral	£5,250
Patella >20kg bilateral	£6,250

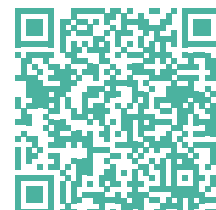

Arthroscopy	
Joint arthroscopy – unilateral (e.g. elbow or stifle)	£4,750
Joint arthroscopy – bilateral (e.g. elbow or stifle)	£5,250

Fracture repair	
Simple fracture (Basic fracture, cross pinning, TT avulsions)	£4,500
Intermediate fracture (Fractures requiring plating or ESF placement)	£5,750
Complex fractures (Fractures requiring multiple plates for example Y-fractures or multiple fractures)	£7,500
Additional fee if CT is required	£750
Follow up recheck with radiographs (inc. sedation)	£650
Femoral head and neck excision	£4,500

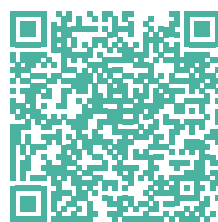

A multi-disciplinary approach

We have access to the expertise and support of our Emergency and Critical Care, Anaesthesia, Diagnostics Laboratory, Physiotherapy and Soft Tissue Surgery teams if needed. This benefits all patients and demonstrates the real advantage of referring your cases to a truly specialist and multidisciplinary referral centre.

To read more about our Orthopaedics service and meet the team, please visit our website.

Contact us

To refer a routine case please go to the referral form on our website.

If your case is an emergency please call the Client Care team on **01638 572012**.

Your clients will be under the care of a Client Care Manager during their time with us.

Although major postoperative complications are unusual, any costs incurred relating to unexpected postoperative complications are not included in our fixed price packages.

*Requirement for pre-operative blood tests are at our discretion and based on clinical judgement and are included in these packages, if there is a co-existent disease, additional tests/medications may be required and will be subject to additional cost.

Medication covered in the fracture packages is pain relief (paracetamol & NSAID) and a short course of antibiotics if indicated.
