## Fixed-Price Diagnostics

Our team now offers fixed-price diagnostic packages for patients requiring ultrasound or CT scans, available on both a routine and urgent basis. These packages are designed to streamline the referral process while providing transparency and predictability in imaging and investigation costs for your clients.

As a multi-disciplinary referral center, we collaborate across a wide range of specialties, including Emergency and Critical Care, Anaesthesia, Soft Tissue and Orthopaedic Surgery, Ophthalmology, Cardiology, Dermatology, Internal Medicine, Oncology, and Dentistry. We also have an on-site Diagnostics Laboratory to support comprehensive case management.

If a case requires additional specialist support or an internal transfer within our center, there will be no extra charges. This ensures a seamless referral experience and highlights the benefits of our fully integrated specialist-led facility.

### Routine Diagnostic Work-up – Ultrasound and sampling

£2,000

This package includes:

- An initial consultation with one of specialist-led teams (for example Internal medicine, Oncology or Soft tissue surgery)
- Initial investigative blood tests (haematology & biochemistry)
- Sedation under the care of our specialist led anaesthesia team (as required)
- Ultrasound assessment with our specialist led diagnostic imaging team
- Sampling from up to 2 sites and analysis (as required)
- Up to one night of hospitalisation (if required).

### Routine Diagnostic Work-up – CT and sampling

£3,000

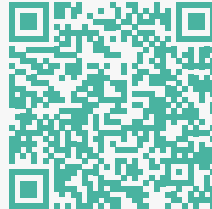

This package includes:

- An initial consultation with one of specialist-led teams (for example Internal medicine, Oncology or Soft tissue surgery)
- Initial investigative blood tests (haematology & biochemistry)
- Sedation under the care of our specialist led anaesthesia team (as required)
- CT scan of up to 2 areas including contrast administration and post procedural fluid therapy
- Sampling from up to 2 sites and analysis (as required)
- Up to one night of hospitalisation (if required).

In cases requiring urgent care, appointments are available within 24 hours across all departments, with emergency support provided by our Emergency and Critical Care team for critical situations. If intensive care unit treatment is needed, an additional fee will apply.

## A multi-disciplinary approach

We have access to the expertise and support of our Emergency and Critical Care, Anaesthesia, Diagnostics Laboratory, Physiotherapy and Soft Tissue Surgery teams if needed. This benefits all patients and demonstrates the real advantage of referring your cases to a truly specialist and multidisciplinary referral centre.

To read more about our Diagnostic Imaging and meet the team, please visit our website.

## Contact us

To refer a routine case please go to the referral form on our website:

If your case is an emergency please call the Client Care team on **01638 572012**

Your clients will be under the care of a Client Care Manager during their time with us.

### URGENT SAME DAY Diagnostic Work-up – Ultrasound and sampling

£2,500

This package includes:

- Urgent consultation with our specialist-led teams (Emergency & Critical Care, Internal medicine, Oncology or Soft tissue surgery)
- Emergency assessment and triage, including an emergency database and point of care ultrasound (if required)
- Intravenous catheter placement and fluid therapy (as required)
- Initial investigative blood tests (haematology & biochemistry)
- Sedation under the care of our specialist-led anaesthesia team (as required)
- Ultrasound assessment with our specialist-led diagnostic imaging team
- Sampling from up to 2 sites and analysis (as required)
- Up to two nights of hospitalisation (if required).

### URGENT SAME DAY Diagnostic Work-up – CT and sampling

£3,500

This package includes:
