Fixed-price Neurology

Our Neurology and Neurosurgery team offer advanced diagnostic investigation and treatment of all neurological conditions, ranging from brain and spinal disorders to neuromuscular conditions.

To support a smooth referral process and for transparency and predictability of costs for your clients, we offer fixed price packages for spinal investigation and surgery and investigation of seizures. These prices are regardless of the time of day the patient is admitted.

Spinal Surgery

£5,950

This package includes:

- Initial consultation with a member of our Specialist-led Neurology team with emergency admission facilitated by our Specialist-led Emergency and Critical care team if required
- An MRI scan of the affected area performed by our Specialist-led Diagnostic imaging team
- The decompressive surgery itself, including a ventral slot or hemi-laminectomy, with general anaesthesia provided by our Specialist-led Anaesthesia team
- Up to 3 nights of hospitalisation with care provided by our 24-hour onsite nurses and vets
- Pre-operative bloods*
- Medication**

Exclusions apply as unfortunately we cannot offer the package to all spinal surgical conditions for example fracture repair or other complicated spinal surgical conditions.

Spinal investigation package

£3,750

This package includes:

- Initial consultation with a member of our Specialist-led Neurology team with emergency admission facilitated by our Specialist-led Emergency and Critical care team if required
- Pre-procedural blood tests as required*
- An MRI scan of the affected area performed by our Specialist-led Diagnostic imaging team, with general anaesthesia provided by our Specialist-led Anaesthesia teamss
- Up to 3 nights of hospitalisation (1 before and 2 after the scan) with care provided by our 24-hour onsite nurses and vets
- Medications to go home with**

After investigation if surgery is indicated within 6 weeks then this can be offered at total fixed price fee of £7500.

Seizure investigation Package

£3,500

This package includes:

- Initial consultation with a member of our Specialist-led Neurology team with emergency admission facilitated by our Specialist-led Emergency and Critical care team if required
- Seizure profile blood tests
- An MRI scan of the affected area performed by our Specialist-led Diagnostic imaging team
- A CSF tap and interpretation of the samples
- Up to 2 nights of hospitalisation (1 before and 1 after the scan) with care provided by our 24-hour onsite nurses and vets
- Medications in hospital are covered if required, but medications to go home will be an additional cost as cost will vary depending on our findings.

Although major postoperative complications are unusual, any costs incurred relating to unexpected postoperative complications are not included in our fixed price packages.

*Requirement for pre-operative blood tests are at our discretion and based on clinical judgement and are included in these packages, if there is a co-existent disease, additional tests/medications may be required and will be subject to additional cost.

**Medication covered in the spinal surgery packages are pain relief and a short course of antibiotics if indicated

A multi-disciplinary approach

We have access to the expertise and support of our Emergency and Critical Care, Anaesthesia, Soft Tissue and Orthopaedic Surgery, Ophthalmology, Cardiology, Dermatology and Dentistry Diagnostics Laboratory, Internal Medicine and Oncology teams if needed. This benefits all patients and demonstrates the real advantage of referring your cases to a truly specialist and multi-disciplinary referral centre..
